Warnings:

1. Batteries are easily replaceable. Do not use different battery types.
2. Please charge for 8 hours under sunlight before first use.
3. Avoid other light sources projecting onto solar panel at night. This may affect the normal function of the fitting.
4. Install in place with sufficient sunlight.
5. Please understand that the operating time will be affected when there is not enough sunshine to recharge the batteries.
6. The surface of the solar panel needs to be cleaned from time to time with a dry towel.
